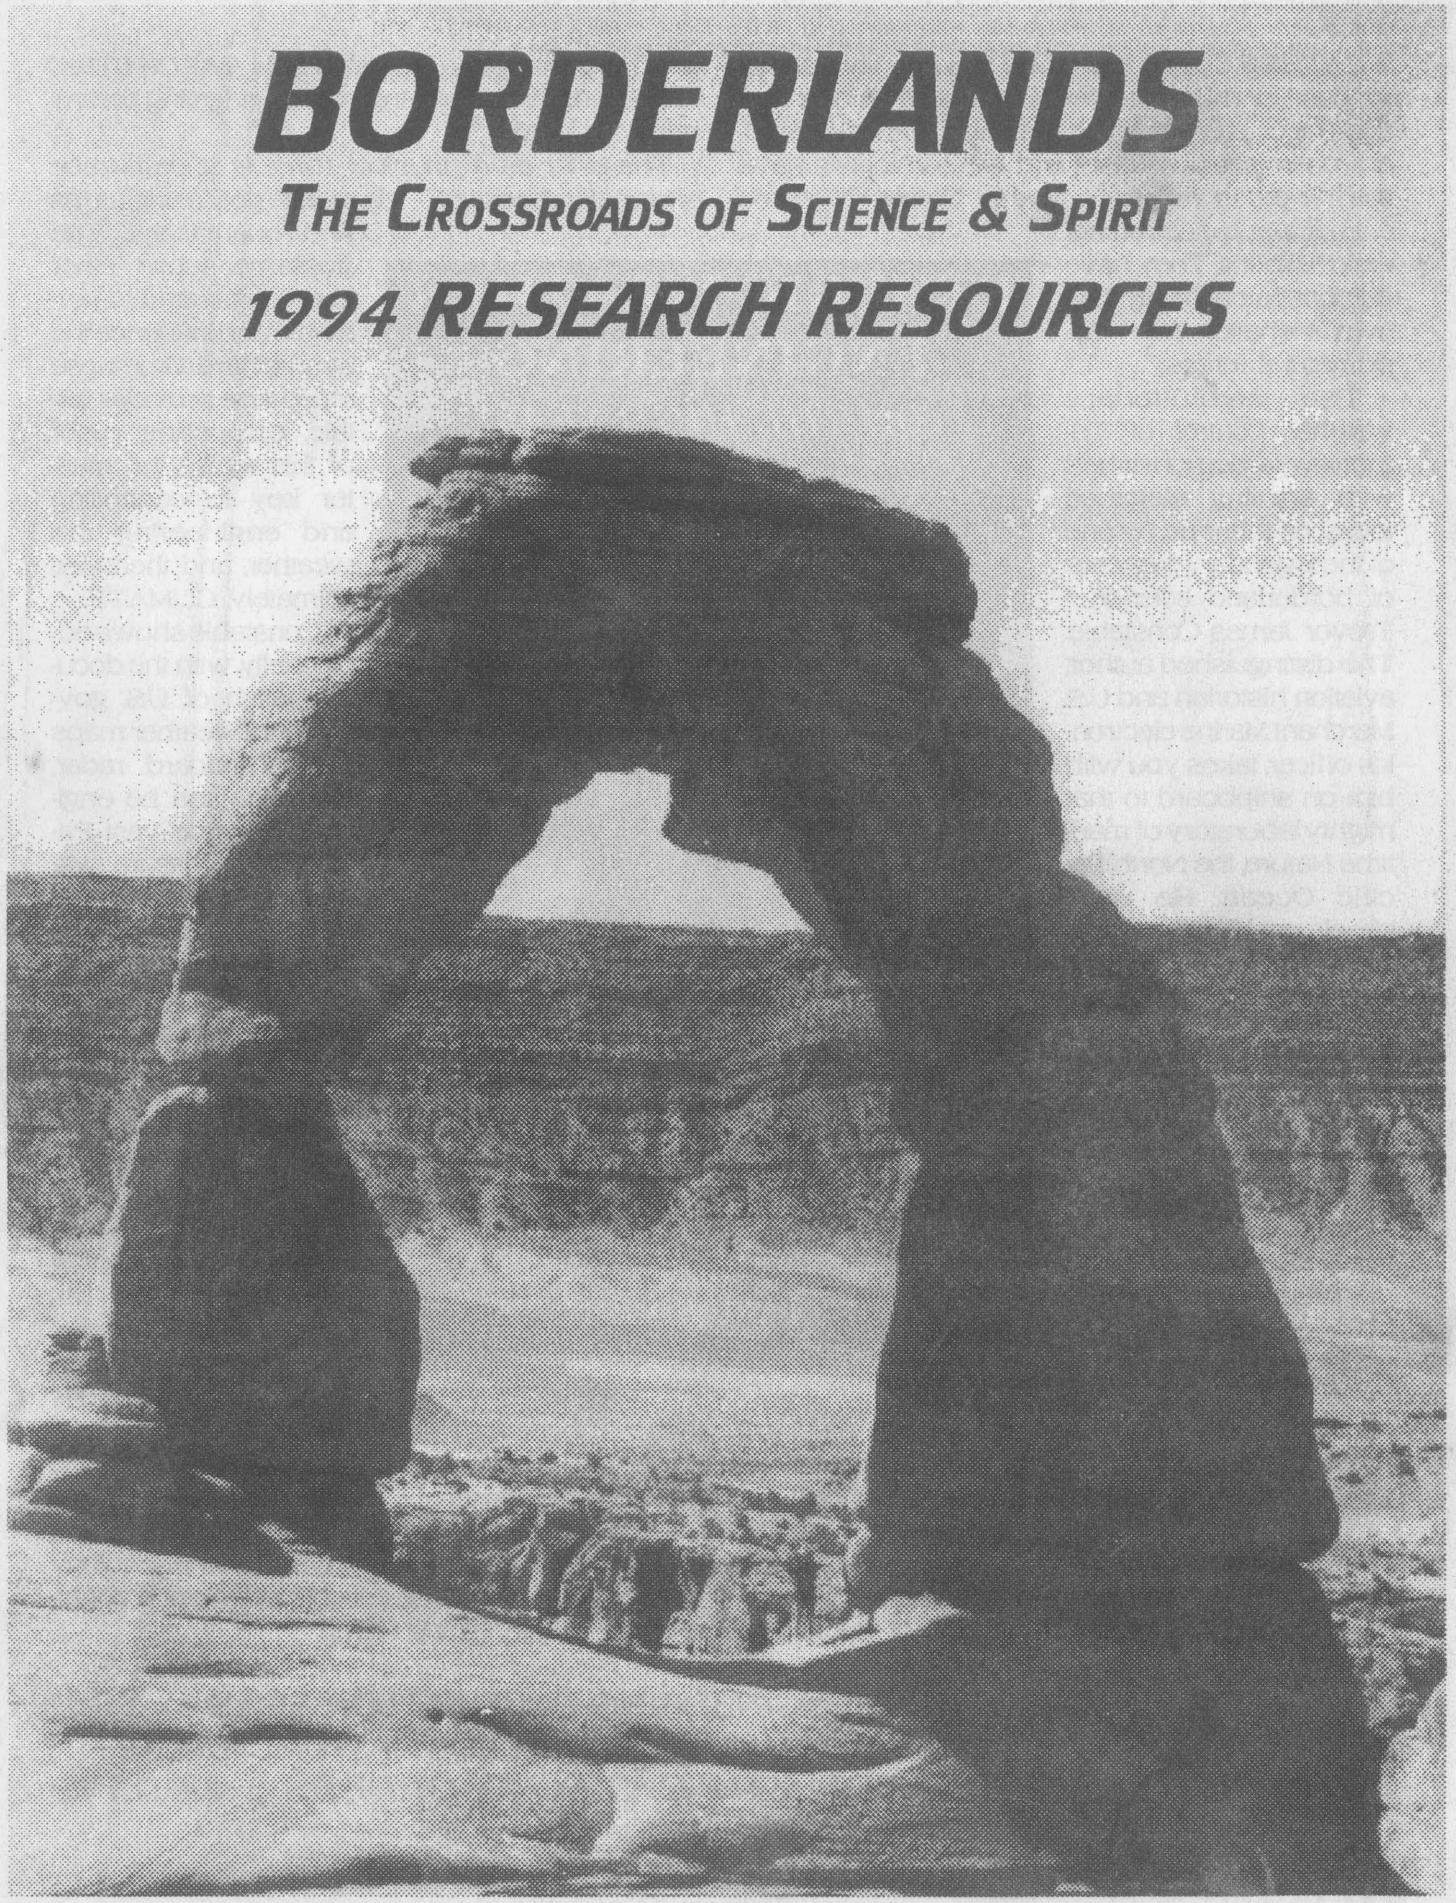
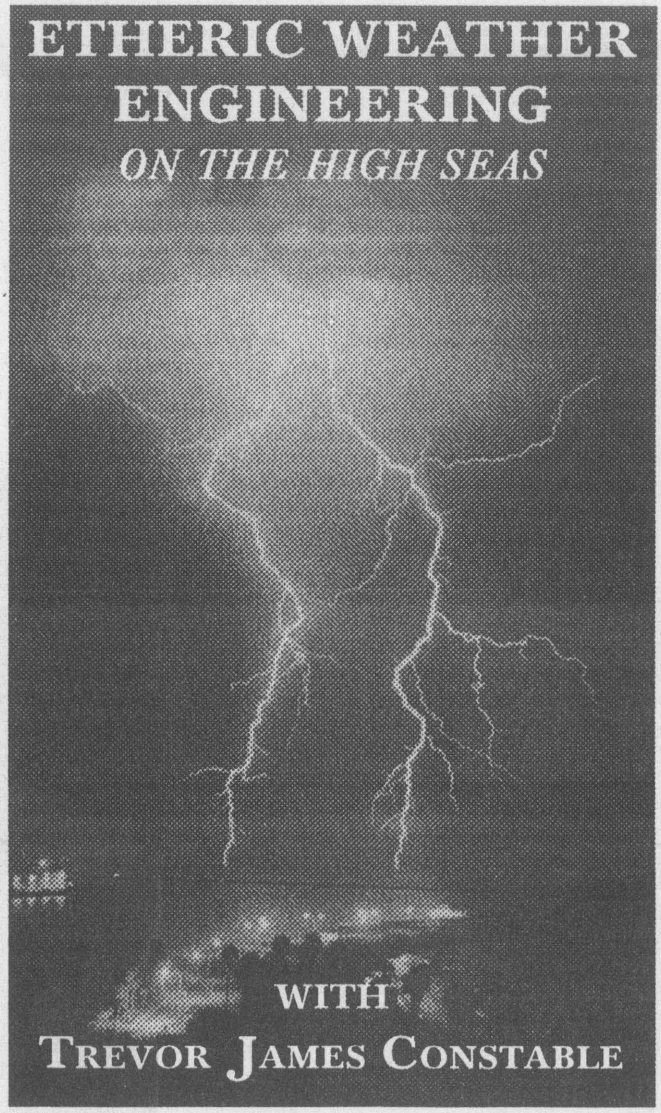
THE CROSSROADS OF SCIENCE & SPIRIT

1994 RESEARCH RESOURCES



WEATHER CONTROL is one of humanity's primal visions. For millennia, weather control has been the domain of shamans, kahunas and warlocks. Modern chemists, physicists and meteorologists have tried to extort rain from Mother Nature via crude chemical and electromagnetic assaults. They have demonstrated mainly their own alienation from basic natural forces.

The revolutionary weather control of Tomorrow is demonstrated with startling elegance today, on this tape, by one of the legendary pioneers of borderland science Trevor James Constable. The distinguished author, aviation historian and U.S. Merchant Marine electronics officer, takes you with him on shipboard to that mighty laboratory of maritime Nature, the North Pacific Ocean. He uses simple geometric apparatus, with no radiation or chemicals. Constable objectively demonstrates that the ether unnecessary to classical physics since Einstein is indeed an incredibly subtle yet tremendously powerful PHYSICAL FORCE. This is just as Sir Oliver Lodge postulated a century ago, holding that we are so totally immersed in this force that we have no consciousness of its presence. Visible empirical work on the high seas has now removed the perceptual barrier Sir Oliver Lodge described.



The ether is no longer an elusive historical phantom. Before your eyes, the ether undergoes a spectacular resurrection. Deluges descend in response to the pioneer's application of the ether's laws. This happens despite HIGH BAROMETRIC PRESSURE and a full range of rain-negating parameters.

The ether as a physical force is shown to be physically accessible via mobile geometric forms and orientations. The gossamer-subtle ether is demonstrated to permeate and influence the atmosphere. Time lapse video tape provides visible, compelling proof of this reality, the master key to controlling and engineering the weather, and therefore ultimately, CLIMATE.

Constable shows additionally, with the documentation of U.S. government weather maps and shipboard radar, that rains can be engineered inside vast Pacific high pressure systems. Such anomalous rains are induced via implosive etheric vortices initiated by direct human intervention. These rains persist within horizon distance for hours on end, as the SS Maui rushes across the Pacific at 22 knots.

Constable then demonstrates with stunning directness, that his simple etheric vortex generators penetrate thick marine steel. *He induces local rain from within the ship's hull!* Radar and US Navy weather maps confirm the mind-boggling truth.

Two and a half decades of quiet pioneering produced the revolution in physics and technology portended by the scenes on this videotape. Enlightening and entertaining for all.

WHAT THE READERS SAY....

"**The Cosmic Pulse of Life**... is the most dynamic, revealing and instructive book I have read in many moons."

D.H., Long Beach, California

"Thank you very much for **The Cosmic Pulse of Life**! It was such a treat to receive the understanding you have gathered with your research. I too, have a desire to participate with life and fathom its secrets. Your book has helped me to get my attention... into the spiritual life I share with the other beings in this universe. When I was a kid the Earth was full of magic. Then I grew up and went to engineering college and I lost the magic. But now, after reading your book the magic is back! It's wonderful. Thanks so much!"

F.A., Hollywood, California

"A wonderful education!!!"

E.B., Wheaton, Illinois

"**Cosmic Pulse** is an important book. ...it can be seen as an introduction to a profoundly revisionist view of the whole universe."

INFO Journal

"This book is one of the classics, it belongs in everybody's library of UFO materials. We have been treated to UFOs from deep space, we know about UFOs manufactured on this planet, and now Trevor Constable treats us to the very archetype of the UFO found in the ethers."

B.C., Sun Valley, California

"Recently finished reading **Cosmic Pulse**. [Trevor's] insights are valuable inasmuch as now, for the first time, I feel like some of the clamor around the UFO phenomena has been rendered into a context — perhaps a paradigm — that is understandable, and grounded in Life processes."

R.S., Santa Rosa, California

"If you have a large bump of curiosity, an appreciation of far out Science, and a need to know what life is all about, get this book and read it! and read it! and read it! You will find the answers to your questions about UFOs, life energies and more....."

METAL POWER ~ The Soul Life of the Planets
by Alison Davidson

According to ancient tradition, each of the precious metals is ruled by a certain planet in our solar system. In this tradition of correspondences, the metal is considered to embody that planet's character and qualities on Earth. For example, gold is the royal metal of the Sun, silver is ruled by the Moon, copper expresses the sensuality of Venus.

Metal Power explores these relationships in vivid detail, drawing on alchemical lore, astrology, myth, and modern technology to penetrate the mysteries of the metallic realms. While modern science ignores these subtle relationships, this book forms part of a new ground-breaking tradition, demonstrating that *these invisible connections do exist... that the elements of earth, including our own bodies are subject to the movements of the stars... that electricity, the 'heavy metals', and radioactivity strangely coincided with the discovery of the mysterious outer planets Uranus, Neptune and Pluto.*

"A fascinating read."
— *The Ley Hunter*

"A lively and lyrical discussion of each planet-metal pair draws upon a vast field of scholarship, including sources from sacred texts, culture, myth, medicine, science and astrology. The bibliography alone is a valuable guide for the researcher."
— *The Mountain Astrologer*

"Anyone interested in chemistry, unconventional medicine, metaphysics, and science frontiers is sure to find some aspect of it intriguing."
— *INFO Journal*

ISBN 0-945685-11-4, 99pp, paperback, #B0125 ... **$8.95**

"Each of these books [*Metal Power* and *Metal-Planet Relationship*] is a fine introduction into the tradition of astrological alchemy. I found that reading them together provided a deep and satisfying journey, as they complement each other so well."
—*The Mountain Astrologer*

THE METAL-PLANET RELATIONSHIP
A Study of Celestial Influence
by Nick Kollerstrom

An extraordinary conjunction of two worlds, using the discipline of science to validate the ancient art of astrology. Through key "metallic moments" the author, an astrologer with a Cambridge science degree, studies the dynamic relationship not only between planets and metals, but also between the psyches of eminent scientists and the key moments of their discoveries. Includes actual time-experiments, astral portraits of the seven metals and numerous astrological charts. A clear, lucid presentation providing experimental evidence of the influences of the planets upon our earthly life.

ISBN 0-945685-14-9, 173pp, paperback, #B0253 ... **$12.95**

"This is a deeply important book with revolutionary implications for our understanding of the scheme of things. It should be read by every student of astrology and every student of chemistry. For whilst its findings, that there are definite correspondences between the reaction of metal salts and the cycles of the planets, still require further replications and refinement, it is clear that here we have an approach which can show not only that 'all things both near and far hiddenly together linked are', but also that such links are of both a quantitative and qualitative kind."
Charles Harvey, *President, UK Astrological Association*

"This book ... should be required reading for all students. Nick Kollerstrom ... is one of the most important minds in astrological research today. Whatever your approach to astrology, you should buy, read and reflect upon this deeply important book." —*The Astrological Journal*

ORIGINS OF BIOCIRCUITS

L. E. Eeman first devised the biocircuit early in the 1920's to heal himself from "incurable" wartime injuries. After his miraculous recovery, Eeman devoted his life to exploring the remarkable properties of these simple tools. In almost 40 years of intensive research, Eeman claimed many medical uses for biocircuitry. Despite this, his work was never accepted by the medical establishment, and it fell into obscurity after his death in 1957.

Happily, in the 1970's an American researcher, Peter Lindemann, took over where Eeman left off. After hundreds of innovative experiments, he came up with many new refinements, streamlining the circuits and adding the subtle properties of pure silk.

BioCircuits™ come boxed with full written instructions & a special audio-tape with voice, music and brain synchronization signals. BioCircuits are sold for research purposes only.

* Would you like to regain the energy, mental clarity and agility that you enjoyed at 35 or even 25?
* Would you like to gain these benefits easily?

Well, that's what we're offering. In the past 10 years, over 100,000 people, just like you, have gained the benefit of this powerful anti-aging secret. Now, it's your turn!

You might be asking yourself, "What is Borderland selling?" Well, first we'll tell you what we're not selling. It's not expensive vitamins, minerals, herbs or magic potions! It's not creams or salves or special diets. It's not a fad or a gimmick, either.

What we are offering is a 30-page, easy to read booklet. The book is the authentic text of Peter Kelder's amazing account of the Five Tibetan Rites of Rejuvenation and how they were brought from a monastery in the Himalayas to the United States in the 1930s.

It's the story of a British Army Colonel in his late 60s, who, after retirement, decides to track down persistent rumors of a "Fountain of Youth" that he heard while stationed in India. He returns 4 years later, completely transformed. Now, in his early 70s, he appears and acts like a man of 35! With the author's help, the Colonel organizes a small class to teach the simple practices he learned while at the monastery. He claims that these rites are all that is needed to reverse the aging process.

Each of the "Five Rites" is clearly explained and illustrated. These are not strenuous exercises or difficult yoga positions. The "Five Rites" are simple practices which anyone, young or old, can easily accomplish in 10 minutes a day, to activate and balance the body's vital energy.

The title of this book is The Eye of Revelation. The author called it that because he felt it really revealed one of life's most important secrets, that the "Fountain of Youth" is inside you.

NOW ITS YOUR TURN!

BONE MARROW NEI KUNG:
Iron Shirt Chi Kung III

Bone Marrow Nei Kung is a system to cultivate internal power. Through absorbing cosmic energy into the bones, the bone marrow is revitalized, blood replenished, and the life-force within is nourished. These methods are known to make the body impervious to illness and disease. In ancient times, the 'Steel Body" attained through this practice was a coveted asset in the fields of Chinese medicine and martial arts. Taoist methods of "regrowing" the bone marrow are crucial to rejuvenating the body, which in turn rejuvenates the mind and spirit. This system has not been revealed before, but in this ground-breaking work Master Mantak Chia divulges the secret practices of his predecessors. 288 pp, #B0183 ... **$14.95**

CHI NEI TSANG:
Internal Organ Chi Massage

Presents a whole new approach to healing and teaches how to heal oneself and how to facilitate the healing of others through their own efforts. Chi Nei Tsang is full of time proven methods gathered from thousands of years of experience. It is also one of the most comprehensive approaches to working in the abdominal center where the universal, Cosmic, Earthly, and Pre-Natal Forces are stored. Unlike some other systems which work at the body's extremities, Chi Nei Tsang directly massages the internal organs, releasing negative emotions, stress, tension, and sickness that congest in the abdomen and disrupt vital functions. Applying Chi Nei Tsang techniques to the abdominal center achieves the fastest results and the most permanent healing. This system is also unique in that it offers methods for preventing any accumulation of negative or sick energies that other people release during the healing session.

KABALISTIC STUDIES
by Riley & Judy Crabb

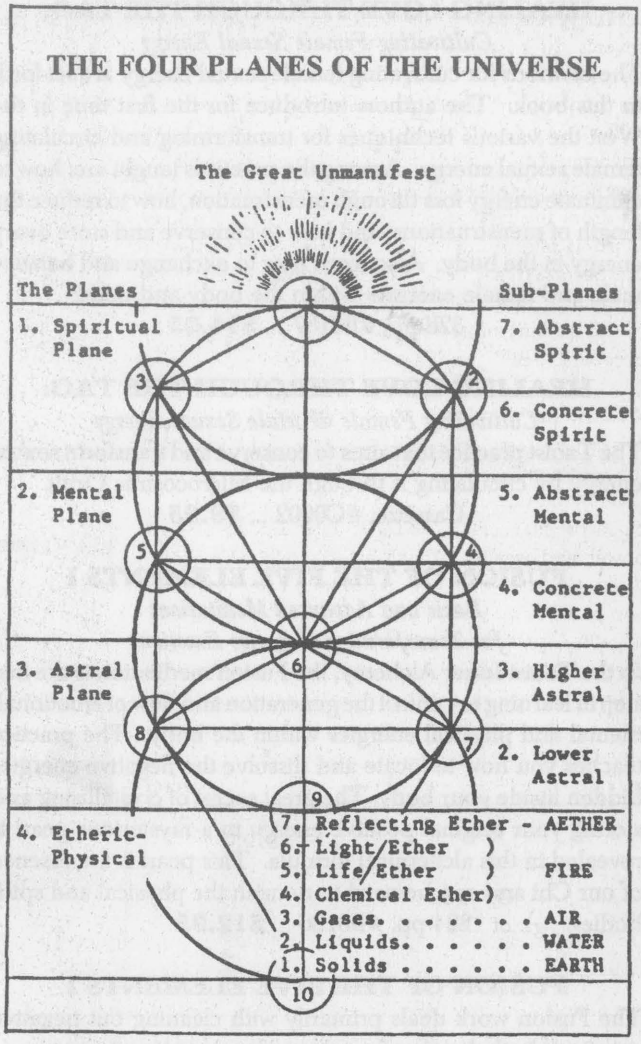
These lessons were originally presented in the 1960's & 1970's and were developed from the authors' practice.

THE INVISIBLE REALITY BEHIND APPEARANCES, Part I – The first three of a series of lessons in Occult Science, developed by Americans for Americans living within the Western Mystery Tradition! Each lesson has three subsections: 1. Theory, 2. Practice of Workshop, 3. Discussion. The book is indexed and there are many drawings and illustrations to help the imagination. The material was developed and streamlined in actual class work in Florida and California. There are drills in concentration, relaxation, rhythmic breathing and visualization – all necessary conditions for controlled ESP or the expansion of consciousness beyond the physical. The Ground Plan is the Kabala and the Tree of Life of the Western Mystery Tradition. #B0270, staples, 97pp, ... **$15.95**

THE INVISIBLE REALITY BEHIND APPEARANCES, Part II – Lessons Four, Five and Six with talks on "The Three Great Occult Traditions", showing how our tradition came from Atlantis, through Egypt; "The Four Planes of the Universe", and "The Creation of the Universe". Continuing to give the sincere student a comprehensive system of self-development, designed to put him or her in touch with their own Higher Self or Master, and within That the All Present Creator. We continue the daily "five-finger exercises" of the mind by which you raise your personality to concert pitch, establishing your own disciplines, working at your own pace. Remember, controlled ESP is a fine art, worthy of your highest efforts. #B0271, staples, 77pp ... **$12.95**

YOU LIVE IN FOUR WORLDS – Lesson Seven in the Invisible Reality Series on the Kabala. Section I deals with your fourfold nature: Spiritual, Mental, Emotional or Astral, and Etheric-Physical. These divide into seven sublevels and are clearly charted. There is a 20 page discussion of how these "worlds" register in your consciousness, including music representation of them. Section II contains a Ritual of Abundance, the 2nd Pentacle of Jupiter, plentifully illustrated with "how to do" drawings of the Kabalistic Cross and the Lesser Banishing Ritual of the Pentagram – so powerful for purification and protection! These simple rituals prepare you for more advanced work. Section III gives you the characteristics of the Four Worlds when contacted. This knowledge is invaluable to the student whose consciousness is opening up to other levels of awareness, and the ability to distinguish between the false and the true is sorely needed. #B0272, staples, 48pp ... **$7.95**

THE FOUR WAYS TO FREEDOM: *The Way of the Faqueer* – Lesson Eight in our Kabalistic series on the Invisible Reality Behind Appearances. This is adapted from one of Ouspensky's studies with Gurdjieff in St. Petersburg in 1916. We relate the Four Ways to the Four Worlds covered in Lesson Seven. These "ways" are the Way of the Faqueer (physical), the Way of the Monk or Nun (emotional), the Way of the Yogin or Kabalist (mental), and the Way of the Adept (spiritual). All are described in this lesson, but the emphasis is on the Faqueer and the subduing of the physical body through control of mana, prana and ectoplasm. Well illustrated with the four Tarot trumps picturing the Four Ways. #B0273, staples, 45pp ... **$7.95**

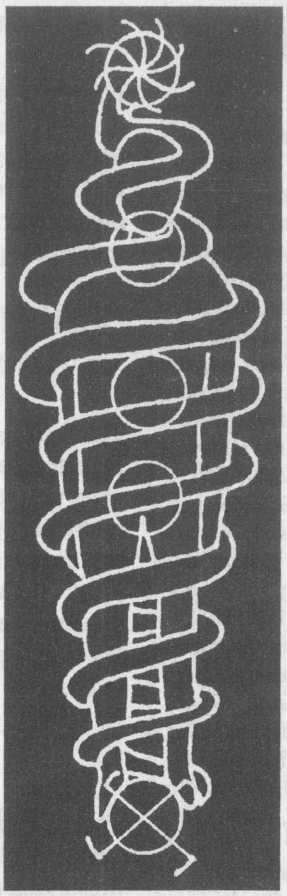


THE WAY OF THE NUN: *The Life of St. Theresa of Avila* – Lesson Nine of the Invisible Reality Series is an illustrated review of the life of this great Mystic, with emphasis again on the four levels of consciousness. Theresa called these the Four Waters of Prayer. There are dramatic illustrations of these Four Worlds from her own trances, visions and ecstasies. This Second Way of the Four is one of the shortest of all because of the terrible self-sacrificing martyrdom of the Mystic. When reviewed from our vantage point of Hermetic Wisdom, Theresa's autobiography is one of the most illuminating books on occult science in the Western Mystery Tradition. BSRF #B0274, staples, 47pp ... **$7.95**

THE MASS *or the CELEBRATION OF THE EUCHARIST* – Lesson Ten of the Invisible Reality Series is an illustrated review of the essential parts of Charles W. Leadbeater's masterful work on "The Science of the Sacraments". The Mass is the most commonly performed magical ritual in the Western world. Every student of the Mysteries should be familiar with it as it is central to the Kabalistic Tree of Life! The Mass is an invocation of the God force of Tiphareth, the Sun-center on the Middle Pillar. This talk includes illustrations of the Etheric structure built on the Inner Planes by the Angels of the Eucharist as the Mass progresses. There is an occult explanation of the "miracle" of transubstantiation. #B0275, staples, 42pp ... **$6.95**

THE WAY OF THE MONK – Lesson Eleven reveals there is the lower Way of the cloistered devotee with his robe, his mortifications of the flesh, his unquestioning obedience to his superiors, his selfless service; and there is the higher Way of the advanced Mystic who has freed himself from all, or nearly all, physical limitations. He is ready to graduate from the Human Kingdom. We chose Krishnamurti as one of the best contemporary examples of the Second Way, using his illuminating dialog with journalist Rom Landau at Carmel, California to reveal his innermost thoughts on this Path or Way to Freedom. #B0276, staples, 43pp ... **$6.95**

TULKUS. A TIBETAN INITIATION: *The Way of the Yogin or Cabalist* – Lesson Twelve reveals the technique of Self-Conscious Reincarnation practiced by the Tibetan Lamas. It was by this advanced Yoga practice that the Lamas kept control of their power and wealth through a series of incarnations. Tulku was perversion of the doctrine of the construction of the Solar Body or Body of Light, the only way to get out of the world alive! This advanced work was taught under highly secret conditions in the Western Schools as well, as there are veiled references to it in Gnostic teachings, for instance; so, Lesson Twelve is one of our most fascinating and readable lessons, delving as it does into some of the most secret practices of that land of mystery, Tibet. Heavily illustrated. #B0277, staples, 57pp ... **$9.95**



THE WAY OF THE YOGIN or KABALIST – The Yoga of One-pointedness is described and illustrated in Lesson Thirteen, drawing from Evans-Wentz's studies in "Tibetan Yoga and Secret Doctrines", and from Behanan's "Yoga, A Scientific Evaluation". We review briefly the development of Indian Philosophy and Yoga from the earliest Vedic hymns to the Upanishads and Patanjali. Credit is given to Kapilya, one of the greatest of pre-Buddhist Hindu reformers, whose teachings are still preserved in the Samkya school. The 12 different Yoga schools are listed. Emphasis is on the Yoga of One-Pointedness as developed by Tibetan Buddhism, the Middle Path or Middle Way (which we Westerners show as the Middle Pillar on our Tree of Life), avoiding the extremes of asceticism on the one hand and worldliness of the other, as spelled-out in Dion Fortune's "Esoteric Philosophy of Love and Marriage". #B0278, staples, 53pp ... **$8.95**

THE FOURTH WAY or Way of the Adept, Pt. I – Lesson Fourteen is largely a review of the lives of the Hungarian adept, Francis Rakoczi. This Regent of the West seems to have had more to do with the shaping of our present civilization than any other individual, as is indicated by his series of lives in Europe, especially that of Sir Francis Bacon. As Poet he wrote the great plays under the name of Wm. Shakespeare. As Statesman he encouraged the Protestant colonization of North America and established the principles of Scientific Research. As Occult Scientist he reformed and revitalized the Masonic and Rosicrucian fraternities. As Philosopher he established the English language as the great educational and communicational tool of the West, through the Plays and through supervision of the translation – and formalizing of the style – of the King James version of the Bible. He was also St. Alban, the Roman Soldier-Martyr of the 3rd Century and Roger Bacon, magician-scientist of the 13th Century. #B0279, staples, 71pp ... **$11.95**

THE FOURTH WAY or Way of the Adept, Pt. II: *Apollonius of Tyana* – These are biographical notes on the life of the Cappadocian Sage from those who knew Him personally there in Palestine and Rome of the First Century A.D., transcribed from the old book, "Antiquity Unveiled", by J. Roberts and published in Philadelphia in 1882, and obtained at a series of seances especially arranged by the Master. Was there a historical Jesus? Of course there was! He was also Paul and John, the Revelator of the last book of the Bible, Revelations. This material gives some hint of the early occult training Apollonius received and throws new light on the Essenes, the first Christians. #B0280, staples, 37pp ... **$5.95**

PSYCHIC SELF-DEFENSE, Part I: *Preconditions For Attack* – Lesson Fifteen in our series on the Kabala goes deeply into the obsessive ideas, the neuroses, the psychoses, the-hysteria which open us up to psychic attack. The Kabalistic-Cross and Middle Pillar exercises are diagrammed and explained as balancing rituals which help protect a person from the Astral leeches and wolves. #B0281, staples, 37pp ... **$5.95**

This is the story of the pioneering Austrian naturalist Victor Schauberger, who by studying fish in streams and by closely observing the natural water cycle, was able to solve basic problems of energy transformation. His discovery of implosive energy and diamagnetism had many practical applications, most of which have yet to be developed. Subjects include: Schauberger's Teachings on Water, The Life and Death of a Forest, Perpetual Motion, Implosion and Biosynthesis, and more. #B0133, 162pp, paperback ... **$11.95**

SENSITIVE CHAOS

Theodor Schwenk.

The hygiene of both water and air present many urgent problems today. Both are indispensable, life-giving and life-preserving elements, and both are suffering from every kind of pollution. Here, Schwenk presents the phenomena of water's life and action in a brilliant series of nearly a hundred full page photographs, but the reader will find the numerous sketches which illustrate the text equally enthralling. This book has rightly been called the first authentic treatise on the phenomena of water and air.

Nature Was My Teacher

The Vision of Viktor Schauberger

In what was to be the last year of his life a little known man of great vision received an invitation from America he simply couldn't refuse: complete and ample financial support to carry on the work of *Project Implosion* — a project which promised to give humanity free, clean energy while allowing for the return of balance in nature. And so, despite his deteriorating health, an elderly Austrian Forestmaster, Victor Schauberger, gathered all the materials of his life's work and made the trip to America — at last Victor Schauberger was to receive the long-overdue recognition for his awesome discoveries! Unbeknownst to Victor however, there was no money, only a well planned set-up that kept him in virtual imprisonment until every bit of his incredible data was signed over to these mysterious Americans. Completely crushed and dismayed, Victor returned home to Austria where he died five days later.

Who was this man Victor Schauberger, and what sort of evolved discoveries had he made which prompted the methodical invalidation of his ideas and the diabolical destruction of his intense will to live?

This video reveals all the shocking details of his life commitment — the proposals, the inventions, and the predictions that so upset the establishment. This video celebrates Victor's dedication to the salvation and glorification of water... *the lifeblood of the earth*. Witness for yourself the astounding contributions one remarkable man attempted to bring to a planet already showing signs of the desperate times ahead during the 1920's and 30's. This is one video you will want to show to everyone around to help spread its vital message.

A SCIENCE FOR THE FUTURE

MY SEARCH FOR RADIONIC TRUTHS

With Possibilities of Acceptance by Science and Medicine

R. Murray Denning

While only a young man, the author was told by doctors in England he had an 'incurable' disease. But he confounded the doctors after meeting healers who practised the art of radionics and he not only lived to a ripe old age but became a healer himself. The enthralling story of Murray's 25 year search is a wonderful introduction into the subtle energy world of *radionics*. Here you will meet some of the most famous pioneers in this field, doctors such as Albert Abrams, Ruth Drown, Dinshah Ghadiali, who dared to innovate — and cure — much to the displeasure of the medical establishment. Other emminent scholars 'overlooked' by the medical and scientific community, such as Mary M. Leigh, Georges Lakhovsky, Darrell Butcher, George Crile, S.W. Tromp also make their appearance. Many historic photos and descriptions of rare and unique Radionic equipment are included. Also a very useful synthesis of related fields such as dowsing, color therapy, numerology, yoga and alchemy. SCIENCE & PHILOSOPHY OF THE DROWN RADIO THERAPY

Dr. Ruth Drown

Dr. Drown was one of America's most brilliant women, combining the highest qualities of the scientist, inventor, medical doctor and healer in one person... good enough reason to be hounded by the medical establishment, her wonderful discoveries suppressed and her work brutally censored. But here, in her own words, the prolific radionics pioneer explains the foundation of her amazing life's work. Light years ahead of her time she describes: Life as an energy, a consciousness and a substance; the Life-force and magnetism in relation to the body; the chemistry, physics and metaphysics of the body; and the incredible Radio-Vision photographs — photographs taken from a distance using only a tiny blood crystal from the subject. This astounding work opens up a whole new world for future science.

REPORT ON RADIONIC RESEARCH PROJECT

Sponsored by The California Society of Chiropractic Radionic Research, Los Angeles, 1953. This serious project demonstrates the definite existence of unseen energies in Radionic equipment. With rigorous scientific controls imposed, this project moved beyond the unrealistic approach of earlier researchers. First it was necessary to establish that the radionic process, although invisible to our eyes, actually takes place! Here are the results.

SPONDYLOTHERAPY

Spinal Concussion and theApplication of Other Methods to the Spine in the Treatment of Disease

Albert Abrams

"The subject of spinal therapeutics has received less attention from the medical profession than it deserves. Even the laity know that cold applied to the back of the neck may arrest hemmorhage from the nose, and that heat applied to the small of the back may hasten menstruation . The profound and far reaching physiologic truths which underlie these simple phenomena have either been ignored or only given inconsiderate attention." Dr Abrams discuses many subjects in this book including: Structure of the Spinal Cord, Summary of Spinal Diseases and Symptoms, Electrotherapy, Spinal Hydro-Therapy, Psychrotherapy, Pseudo-Visceral Diseases, The Vaso-Motor Apparatus, Sinusoidal-Analgesia, and much more. #B0177, 209pp ... **$33.50**

RADIATIONS OF THE BRAIN

Dr. Oscar Brunler

Everything on Earth radiates some form of energy — including your brain! The fact that radiations emanate from the human body was first made public by von Reichenbach in the 1800s. Dr. Brunler then discovered that human brain radiations varied quite considerably and he went on to measure them — the rates depend on the intelligence and thinking power of the individual. The genius Leonardo da Vinci (through taking measurements from his paintings) was found to have the highest rate of all those tested by Brunler.

ASTROLOGY & BIOCHEMISTRY

Vanda Sawtell

The exciting study of Astro-biochemistry, or the relationship between Biochemistry and Astrology is only just beginning to be rediscovered. The ancients knew how the 12 signs of the Zodiac are directly related to the structure of the human body. Now you can learn how the 12 Biochemic cell salts fit into this overall pattern. The cell salts are the building blocks of the elemental body, and each is ruled by a certain sign of the Zodiac. For example, the cell salt attributed to Capricorn is Calcium phosphate which forms the bones of the body, and the bones are under the influence of Saturn....The author interweaves these two systems together with many references to biology, mythology, symbols and herbs. Her many valuable insights give scope for much original experimentation.

The dowsers and the users of the 'Radionic' instruments, have worked steadily forward in the use of this strange energy which seems in part related to the life energy in living things. Therefore, the phenomena of life must be due to radiant and electrical energy. **Contents** include: The theoretical role of electricity in the living state; Oxidation; The role of lightning, brush electric effects, and the nitrifying bacteria in the genesis and activity of protoplasm; The radiogen; Radiation; Autosynthetic cells; The physical characteristics of living organism and cells; The control of the radio-electric mechanism; The physical nature of mental processes; The spectrum of the living state and its control; The role of the thyroid gland, adrenal-sympathetic complex, the liver, and the adrenal cortex; Sleep; Radio-electric physiology and pathology; Civilized man — a radio-electric mechanism; Physical injury, muscular exertion, infection, emotion, anesthetics, narcotics, poisons, stimulants; Shockless operation; The mechanism of Life and of Death; Studies of electric conductivity and electric capacity; Lipoids, proteins and glucose; Studies of Electric Potential; The Emission of Radiation from Animal Tissues; Mitogenic Radiation; The radio-electric theory of living process. Cytological studies. 4. Biophysical studies. **Contents** include: Previous theories or established facts regarding electrical processes in the organism; The unit cell as a bipolar mechanism; Bipolar nature of protoplasm; Facts regarding body organs and tissue in relation to their function in a bipolar mechanism; A suggested bipolar interpretation of cancer; A suggested bipolar interpretation of memory; A suggested application of the bipolar theory to the processes of reproduction and to the transmission of acquired characteristics; The uniformity of the bipolar pattern from the atom to man; Electric conductivity studies; Oxidation-temperature measurements; Electric capacity measurements—thickness of cell membrane; Certain established facts regarding electric energy and its relation to other types of energy in the operation of the organism: Electric Energy; Light Energy; Heat energy; Interatomic, intermolecular and intramolecular forces; The electrical significance of certain established facts regarding the principal constituents of the animal organism. THE MORLEY MARTIN EXPERIMENTS

AND THE EXPERIMENTS OF DR. CHARLES W. LITTLEFIELD & WILHELM REICH

This book is packed with leads for borderland research into the Etheric realms — and into the very nature of life itself. "Renown awaits the enterprising young biochemist who treads this same pathway today...."

Trevor James Constable

The origins of life are the focus of this vitally important document. To the great consternation of the scientific world, Morley Martin succeeded in creating organic life from supposedly inert pre-fossil azoic rock! He proved that there is no death, only latency, and that life is not special to this planet but is a spontaneous universal phenomenon.

Dr. Littlefield also demonstrated life-forming activity in the mineral realm, with life actually emerging from 'dead' rock! While crystallizing inorganic substances and homeopathic cell salts, he described many organic forms imprinted into 'inert' substances. He was also able to project forms into crystals via psychic power!

Also documented here are Andrew Crosse's extraordinary experiments where spider-like insects formed from 'inert' volcanic pumice, after being treated with acid and electricity. Learn of Dr. Wilhelm Reich's ground-breaking bion experiments — the creation of living, pulsating energy from heat-sterilized substances! Also a brief description of disease diagnosis through crystallized blood spots.

FULCANELLI: MASTER ALCHEMIST

(*Le Mystere des Cathedrals*)

An esoteric interpretation of the hermetic symbols of the great work. One day in 1920, Fulcanelli, a master alchemist, handed his pupil a manuscript, charged him with the task of publishing it — and disappeared. Only his masterpiece *Le Mystere des Cathedrales* remains. This book speaks of the phonetic Cabala, of process and transformation within alchemical tradition, and of the fact that the Gothic cathedrals offer mankind instruction on the technique of our own evolution. AETHERIC MUSIC

THE HEALING POWER OF MUSIC

Sound in relation to Health

Horace Leaf

Here is a treatise which actually approaches the healing arts by way of real music and not just meaningless tone clusters. The Scandinavian use of "Lap-reading" is thoroughly discussed. This practise is based on the Laplander's belief that every condition of the body and mind is related to certain sounds and words. These words and phrases are believed to invoke the aid of powers independent of the patient and thus restore the desired health. These melodies to the Laplander are but fragments of the great symphony of nature. Other topics covered include: Effect of Sound on Inanimate Objects; Different Effects of Music; Music, Mind, and Emotion; Cosmical Significance of Music; with and appendix of several suggested exercises and experiments. A worthy little read for those interested in the hidden powers of music.

THE EIDOPHONE VOICE FIGURES

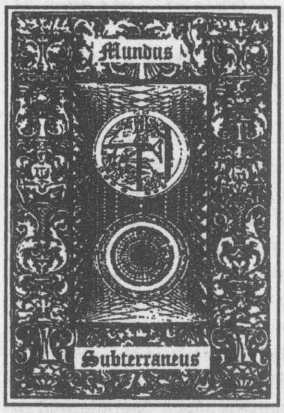
Margaret Watts Hughes

Every sound made by the human voice produces strange and beautiful geometric forms. Now you can see for yourself the true magic of sound. The photographs (from 1904) were created by singing notes and tones into a device which translates them into exquisite living forms. After reading this, sound will take on new depths of meaning whether it be the melody of song — the sonorous power of ritual chanting — the sweeping grandeur of a symphony orchestra — or the soft tones of a lover's voice. This is a wonderful book for artists, musicians and all who long to perceive the reality of the etheric world. #B0024, 8-1/2x11, 47pp, staple ... **$7.95**

Mundus Subterraneus

Michael Theroux

Combining a variety of instruments such as pianos, harmoniums, ethnic drums and a new instrument called the Terra Superimpodynamidæ, Michael Theroux has created an array of deeply inspired compositions that reflect the sacred geometries of subterranean energies. The title, *Mundus Subterraneus*, was taken from a rare manuscript written by Athanasius Kircher in 1665 which deals with the alchemy of telluric currents.



On several songs, you will experience the earthy sounds of the Terra Superimpodynamidæ, an instrument utilizing a number of heterodyned shortwave receivers whose antennas are iron rods driven deep into the soil! To play the instrument one merely moves the hands about in the vicinity of the device. On the title cut, the complex tonal structures of this instrument serve as a melodic backdrop for the deep gongings of an actual earthquake event!

On other compositions, Michael has incorporated radionic interval forms which relate directly to the vital processes of the earth itself. Within the motive medium of song these vital energy forms open us to the exploration of dissociating rhythm, melody, and harmony, and may even give one the feeling of timelessness.

Experiencing this music will bring you in direct contact with energy of the subterranean realms. Not simply a meditative aid...it is quite entertaining and inspirational.

THE MYSTERY OF THE SEVEN VOWELS

Jocelyn Godwin.

The seven vowels, which we use in everyday speech, depend on the phenomenon of harmonics, which is at the very basis of music, while our sensitivity to them proves that the human ear is naturally attuned to harmony. When we hear vowels, we are hearing the laws of harmony, which are ultimately the laws of number that are said to govern the universe. Subjects also include: Vowels and Planets, Vowels and Colors, Ancient Vowel Songs, Egyptian Mysteries and much more. The treatment is scholarly, but the book is also practical, giving a number of different paths for discovering one's own tones through the vowels, and exploring their power to center, uplift, and to heal. #B0137, 107pp ... **$10.95**

CYMATICS

A Film by Dr Hans Jenny

A visually exciting and fascinating portrayal of the interplay of vibration and form, energy and matter, this video highlights Dr Hans Jenny's dramatic experiments which vividly show how inorganic matter is "brought to life", that is, given coherent, organic form and definite periodic motion, when infused with specific oscillating frequencies in the audible range. This stunning piece of scientific artistry suggests an underlying tone which sustains all life, and from which more complex forms evolve in much the same way as harmonic overtones emerge from their fundamental. While listening to an increasingly complex tone one may watch inanimate substances, (powders, sand, oil, and water), flowing in increasingly complex patterns of constantly fluid yet structurally stable design. Various mandalas of great intricacy and delicacy are created and transformed through refining the sustaining tone. #V0037, VHS ... **$29.95**

THE VRIL COMPENDIUM

*Author and researcher Gerry Vassilatos has spent years scouring Victorian scientific archives in search of the arcane, the anomalous and the amazing. The fruit of these searches is the release of a singular work of astounding depth and immense power...**THE VRIL COMPENDIUM**. This project is an ongoing major work which is to be published in successive complete volumes. The chief academic value of the **VRIL COMPENDIUM** includes the fact that its documents, photographs, articles & extracts are taken, not only from a wealth of Victorian sources, but from legally weighty ones as well, such as the U.S. Patent Register. Each volume is a treasurehouse of patent documents in whole form.*

VRIL COMPENDIUM I

WHITE RAY CONDUCTORS

An astounding assortment of arcane designs and remarkable inventions is presented in our first volume. Aerial batteries were designs which made practical use of the energies which celestial currents and rays brought to earth. Patents of Ward, Vion, Palenscar and others offer the reader a rare glimpse into the workings of **VRIL** from aerial sources. Lightning rod patents fill the second section of the volume. Earth currents and earth resonance are discussed extensively in this volume.

231 pages, #B0223 ... **$36.95**

VRIL COMPENDIUM II

VRIL TELEGRAPHY

A history of the telegraph concept and systems precedes the patent section. Telegraphy began with a truly radionic basis. Early telegraphic systems utilized the strange and mysterious correspondences acquired between specially treated magnetic needles and sympathetic pendulums (properly grounded and oriented). **VRIL** maps show that the telegraph system was literally generated along **VRIL** paths as railroad personnel followed their own intuitions while laying track. Signals versus meanings are discussed in articles on communications. The **VRIL** function and potential of telegraph poles, insulating materials, cables, and primary telegraph componentry is detailed.

233 pages, #B0224 ... **$36.95**

VRIL COMPENDIUM III

VRIL LINKAGE

The manner in which **VRIL** radiance has been apprehended through "aquavideo", photographs, and photochemical means is thoroughly documented here in remarkable depth. Introducing telegraphic patents which made direct use of ancient geomantic means for communicating intent: non-electric pendulum telegraph systems, and **VRIL** impression recording systems. How carbon potentiometers were utilized in order to "entune the ground" is presented through several score pages of pertinent patents. The use of potentiometers and rheostats in order to "balance the ground and the system" was a commonplace item to the telegraphic operators of old — they were entuning the earth-permeating power of **VRIL** directly by these means! Each ground required its own tuning rate. Realizing that signal without meaning is not communications is a key feature of discussion. The use of strange capacitors and condenser systems allowed the guiding of **VRIL** threads through telephone systems and into their natural deep channels far below the surface is told through the many patents.

249 pages, #B0225 ... **$39.95**

VRIL COMPENDIUM IV

VRIL ARCHEFORMS

A remarkable assortment of earth battery patents. A primer course in **VRIL** genesis of metal lodes and placer deposits is found here. Diagrams and photographs adorn the text. **VRIL** structures and virtual architectural forms are discussed. How ancient architecture managed to accumulate, intercept, and modulate **VRIL** was only the faltering first steps of a science which has yet to reach its perfection. The use of radionic tuners (made to entune **VRIL** and raise virtual structures) is discussed throughout this section of photographs and illustrations. How it is possible to comprehend the non-material architecture of experience-altering spatial forms is a must reading source for all scholars of **VRIL** science. Subterranean Halls offers various patents which chronicle the progressive move away from aerial telegraphic structures toward buried tunnels and telluric **VRIL**. These patents record the manufacture and use of tunnels and cables. These are remarkable as **VRIL** accumulators, directors, and modifiers. The cables and their tunnels are remarkable geometries by which magneto-electric signals were enhanced. In all...a most thorough and comprehensive account of **VRIL** subterranean guides and interceptors.

VRIL COMPENDIUM V

VRIL CONNECTION

The discovery of nerve-induction telephony by Antonio Meucci in 1849 marked the true birth of telephony. Meucci's unheralded genius marks the victorious biography of a modern savant. Antonio Meucci's initial great discoveries were followed by the independent developments and designs of Elisha Gray. In these documents, patents, and articles we read of developments whereby deaf persons could hear directly through the nerveworks of the body. In these early attempts to approach true empathic transmission we see the basis of systems which Tesla would later advance to a wary scientific public. Meucci's pioneering works in telephony, wireless telephony, unpowered telephony, intercontinental wireless, distant electro-ranging, and underwater wireless were made well before the start of the American Civil War!

VRIL COMPENDIUM VI

VRIL TELEPHONY

A treasurehouse of patents! A presentation of nearly every pertinent **VRIL** transducer of which telephony was comprised. How the human aura and its **VRIL** threads dendritically merge with the natural **VRIL** is the central theme here. Every kind of transducer is shown: liquid, organic, magnetic, and other species. Presents systems which intensified the **VRIL** content of telephone lines with no need for electrical power! Patents by whose means "static" was to be neutralized describe how the **VRIL** portion of telephonic communications were intensified and modulated. Presents the secrets whereby telephonic systems patterned themselves along **VRIL** trails: distribution systems and local exchange systems.

VRIL COMPENDIUM VII

VRIL DENDRITIC GROUND SYSTEMS

A presentation on the earliest *unknown* wireless researchers: Mahlon Loomis, Nathan Stubblefield, & Dr. Amos Dolbear. This volume chronicles the discovery of natural **VRIL** power in the earth ... usable power for communications of signal, word, & intent. Loomis developed his wireless system in 1860; using elevated metallic terminals in the absence of battery power. He sent powerful signals across miles of mountainous space. Stubblefield developed means for drawing **VRIL** from the ground directly and "transmitting vocal messages with clarity" through the ground. Proof that Nathan had indeed found the means by which "sound, light, motive power, and heat...could be taken directly from the ground". Dr. Dolbear is presented through his wireless design patent. His use of elevated capacitors is intriguing and tantalizing ... demanding further investigation. 207 pages, #B0229 ...**$33.95**

EARTH TONES

Gerry Vassilatos
Michael Theroux

There is a power loose in the earth... ancient and forever new. No one may resist. It is the very Ray which gives Discovery. Our experiments have an aim; that is... to reveal and release this Ray of Discovery.

EARTH TONES by Gerry Vassilatos and Michael Theroux is an audio experience which takes the listener on an incredible adventure through the curious sounds of the earth and into the very realm of vital Telluric energies.

On side one, Gerry Vassilatos demonstrates that different substances buried in the earth have different tone signatures. The striking harmonic differences recorded between substances such as Iron, Copper, Zinc, Silver, Galena, Sphælerite, Amethyst, Pyrite, including the tones of vacuum tubes and magnetic pickups when placed in the ground, provides us with accessible vision into the otherwise unknown subterranean earth.

On side two, Michael Theroux demonstrates — through the use of a dipolar ground rod system — that the earth is alive with vital currents of energy. "Pings and Pops" plus the demonstration of the "Vitic roar" can be heard along with the remarkable recording of two earthquake events!

After the initiatory experience of hearing these sounds, no one will be able to deny the existence of the vital energies unleashed from the earth.

WARNING: These are not your average documentaries, but dramatic voyages to another space and time.

RAY OF DISCOVERY I: NIKOLA TESLA

In *ETHERIC PHYSICS* we learn about the phenomenal discoveries which led to Tesla's great life-work. Revealed here is his conception of the ether and its relationship with our own innermost lives. We are also informed about the pathological resistance by the House of Morgan to his discoveries. Insight into the opposition of Morgan, whose daughter fell deeply in love with Tesla, reveals the formidable forces opposing all discoverers in the field of etheric energy. *ECHOES OF RADIANT SPACE* recounts the way in which Tesla tapped into the vast etheric reservoirs of dynamic energies. We are told how Tesla's large designs actually yielded far more energy than they took to run. We see that Morgan's masterplan of coercion actually benefitted Tesla, forcing him to develop more compactly powerful etheric engines and generators. We are, finally, driven into the astonishing revelation concerning Tesla's involvement with what later was called psychotronics. Many of his claims are actually forerunners of a new technology — yet to be revealed. #V0000, 1 ½ hours VHS, ISBN 0-945685-91-2 ... **$19.95**

RAY OF DISCOVERY II: THE LIFE OF DR. ROYAL R. RIFE

WAVES THAT CURE chronicles the work and life of Dr. Royal R. Rife, Californian pathologist and discoverer of the BX cancer virus. We follow the steps which led to his discovery of a powerful agent to selectively destroy any virus. The design and implementation of this tremendously powerful Universal Microscope is recounted; the only microscope capable of viewing viruses in the living state. The method and theory of resonant shattering is taught. This way of destroying a virus — while still in a patient's body — is described in great detail. A total disclosure of his methods, designs, and success is made in these two 1/2 hour episodes.

RAY OF DISCOVERY III: MEDICAL RADIONICS

Three great scientists, deleted from the establishment's history program, are chronicled in this trilogy. They are names you should remember, giants in complementary scientific lore — George Starr-White, Albert Abrams, and Ruth Drown. *THE DELICATE REFLEX* tells the tale of Dr. George Starr-White, a truly gifted and original discoverer in the virtually unknown art of *chromadiagnosis*. His development of colorbeams (to elicit responses in the iris of the eye or the body muscles) marked the first recorded *radionic* diagnosis of disease. These diagnoses gave pin-point accurate results — in the 1880's!! *PULSES OF THE LIVING*, deals with master radionics pioneer — Dr. Albert Abrams — and his remarkable methods for illustrating the etheric 'human energy' nature of health and disease. Unlike electricity, this 'human energy' could be stored in Leyden jars for up to 24 hours. These strange energies could be conducted, refracted, and tuned. His instrument, the Oscilloclast, is also described. *GATEWAY OF THE FUTURE* describes the life and work of Dr. Ruth Drown. Dramatically, this wonderful woman's researches and the utter suppression of her work are defined for the viewer. Learn how Dr. Drown developed her radionic tuning instruments. Discover her famed atlas of rates, her method of treating patients with their own energies, and her mystifying 'radiovision' cameras — devices capable of photographing internal organs and tissue — even from a great distance.

THE NATURE OF SUBSTANCE

Rudolf Hauschka

The author's many years of research provides a new perspective on the nature of matter and suggests a new orientation of the sciences. A revitalized scientific practise can grow from a change in the way phenomena are observed: actively "*thinking into*" things, not merely recording measure, weight, and number. In Hauschka's presentation both cosmic and terrestrial spheres are considered in a study of the basic elements and minerals. The basic elements are given as Earth = Carbon, Water = Oxygen, Air = Nitrogen, Fire = Hydrogen, and are referenced to their cosmic position in the zodiac. This is backed up with years of scientific experiments. Hauschka also explores the mirror realm of coal tar chemistry as a reflection of the living chemistry of the plant world. #B0142, 235pp ... **$18.95**

RELATIVITY AND SPACE

Charles Proteus Steinmetz

This important work has been overlooked in the development of modern concepts of relativity. In these four lectures Steinmetz discards the current (1923) concepts of the ether and opts for a relationship between Projective Geometry and Relativity. His viewpoint is most interesting showing Relativity as something quite different than conceived today, as Projective Geometry deals with true ethereal spaces. Stereo-vision illustrations are included to help the reader understand these concepts. At the same time in Europe, Rudolf Steiner was also guiding his students to projective geometry as the key to understanding the structure of the universe.

Modern "nuclear" energy is wasteful and dangerous, but these incredibly powerful electrical-atomic forces **can** be used for the good of humanity. WORKING OF THE STARS IN EARTHLY SUBSTANCE

Alison Davidson

It has been proven that the movements of the planets have a direct influence upon the earth and all living beings — in particular the metals to which the planets were assigned in ancient times. Astrology and Alchemy are based on a real perceptible scientific basis, as this presentation will show. Researcher and writer Alison Davidson focuses on the phenomenal work of the German scientist Lilly Kolisko, whose 1000s of experiments using metallic salts display, without a doubt, the energies of the individual planets, as each leaves its characteristic pattern. #V0018, 60 min, VHS ... **$19.95**

REVOLUTION IN FARMING AND HUSBANDRY

Murray Bast

With a message of fundamental importance, Murray Bast exposes the horrifying practices of corporate farming and husbandry, and shows their immediate and long term consequences: food with no nutritional value, and an acute mutation of the genetic structure of animal and man. By destroying the soil, the basis of the entire food chain has been destroyed. Bast, whose farm in southern Ontario is his own best evidence that what he suggests to reverse this dead end trend can and will work, delivers a functional solution to an otherwise grim and harmful dilemma.

ASTRONOMY — THIRD SCIENTIFIC COURSE

Translated by Rick Mansell, edited by Fred Mathews: The trend in science towards specialization leads scientists to be ignorant of what their fellows are investigating. Dr. Steiner realized that this would divert thinkers away from true understandings of the universe. This course covers the various branches of Natural Science and ties them all together into a wholistic overview. The motions of the planets against the fixed stars describes the formative forces inherent in human gestation. Steiner described how current understandings of the universe are based on assumptions which don't hold up under scrutiny! Wonder why the Pole Star never moves, even though we are told of the great motions of the earth around the sun, the sun through the zodiac, etc.? Why do the apparent motions of the planets have such a profound effect on plant form? If you are interested in going beyond the borders set by the modern scientific world view into profound cosmic realities then this course will be your faithful guide. Certainly one of the most amazing scientific courses ever offered. A real mind bender!! Illustrated.

TESLA'S LONGITUDINAL ELECTRICITY

VIDEO

A laboratory demonstration video
with Eric P. Dollard & Peter Lindemann

If you've ever wondered if there is more to a Tesla coil than just making big sparks then watch this video. Borderland presents a series of experiments with providing you with factual data on the reality of Tesla's theories. You will see experiments on: The One-Wire Electrical Transmission System; The Wireless Power Transmission System; Transmission of Direct Current Through Space; and, a novel form of electric light which attracts material objects but repels a human hand! Also presented is a longitudinal broadcast from Borderland Labs to a nearby beach, using the ocean as an antenna. These experiments can be reproduced by any competent researcher, *there are no secrets here*! Today's conceptions of a Tesla Coil provide the researcher with little practical material. Eric Dollard reintroduces the "pancake" Tesla Coils in a series of experiments taken directly from Tesla's work. No modern interpretations needed, we went to the source — and it worked! Construction details are given. If you want to do some exciting, exploratory work into Tesla's theories then this video will certainly give you a good start.

TRANSVERSE & LONGITUDINAL ELECTRIC WAVES VIDEO

A laboratory demonstration video with Eric P. Dollard

Eric demonstrates the reality of longitudinal waves and their application to the natural transmission of electricity. Analog computers (networks of coils and capacitors) are presented opening up an entire new field of electrical researches into the wave forms discovered and used by Tesla in his wireless power transmissions. You will experience the physical functions of the various waves via direct measurement inside the computer network. The Longitudinal Magneto-Dielectric wave is shown to have a propagating velocity greater than the speed of light! The transverse electromagnetic wave, (in present use) is shown to be a retarded, unnatural form of energy transmission. A Multi-Pactor Orgone Detector is demonstrated indicating a relationship between dielectricity and orgone. A competent researcher can duplicate the experiments on this video from the information given. Amaze your science teacher!

NIKOLA TESLA : On His Work with Alternating Currents and their Application to Wireless Telegraphy, Telephony, & Transmission of Power

Edited by Leland I. Anderson. The surfacing of the transcript for this pre-hearing interview with Nikola Tesla by his legal counsel in 1916 resulted from an intensive search in archives of legal firms. The text of this interview was, never intended for publication. Counsel, concerned with the protection of Tesla's patent interests, ask questions almost exclusively relating to the priority of his patents and their application. Here, Tesla candidly discusses his contenders while presenting a thorough history of his work with alternating currents as applied to wireless transmission. In this document, he describes experimental methods, techniques, and apparatus used in his laboratories in New York City, Colorado Springs, and Long Island. Contents includes: High Frequency Alternators; Experiments with Wireless Telegraphy and Telephony; Mechanical and Electrical Oscillators; Apparatus for Transformation by Condenser Discharges — Damped Waves; Apparatus for Transformation by Condenser Discharges — Continuous Waves; Colorado Experiments; Theory and Technique of Energy Transmission; Long Island Plant; Arrangements for Receiving; more!

TESLA: *THE LOST INVENTIONS*

George Trinkaus

Here are the suppressed inventions of Nikola Tesla all in one place rendered in clear English and in 42 illustrations. Tesla was famous at the turn of the century for inventing the alternatingcurrent system still in use today. But his later inventions, documented in some 30 U.S. patents between 1890 and 1921, have never been utilized as Tesla intended despite their obvious potential for advancing in fundamental ways the technology of modern civilization. Among these lost inventions: the disk-turbine rotary engine, the tesla-coil electric energy magnifier, high-frequency lighting systems, the magnifying transmitter, wireless power, and the free-energy receiver.

RADIO TESLA

The Secret ot Tesla's Radio and Wireless Power

George Trinkaus

In clear English, 66 illustrations, and a minimum of math, this booklet details the peculiar radio technology of Nikola Tesla. Early elemental radio devices like Tesla's are fascinating and worthy of study because they remind us that powerful radio technologies can be so simple and accessible. Tesla's transmitters produced high-voltage, sudden-pulse disturbances conducted through the earth at low frequencies. His radio is as taboo in official science as his wireless power, which works on the very same principals. Tesla said the radio physics of Hertz, still in vogue, was an "abberation," a "fiction." Modern radio took a lot from Tesla, but what did it ignore? DISTANT VISION

Romance and Discovery on an Invisible Frontier

by Elma G. Farnsworth

The biography of Philo Taylor Farnsworth II, the Utah farmboy who conceived the basic operating principles of electronic television at the age of 13 years. Despite his humble beginnings, this daring young dreamer persevered until his dream became reality, and his work touched the lives of every man woman and child alive today. Beginning with the first moment of inspiration — while plowing a potato field in Rigby, Idaho — this book traces the unlikely chain of events that enabled Farnsworth to produce the first all electronic television picture in San Francisco on September 7, 1927. As television began to capture the world's imagination in the 1950's, Farnsworth went on to pursue even more daring work. In the 1960's he designed and built a device capable of producing nuclear fusion electronically — a process that would have changed our world far more than television ever could! With this lovingly crafted volume, the late inventor's wife provides an intimate, first-hand account of their lives together on the leading edge of discovery.

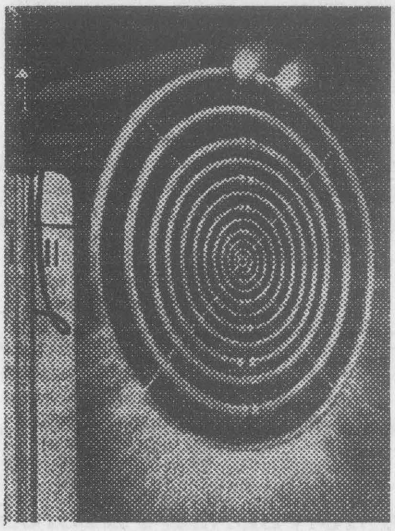
PHILO T. FARNSWORTH II
with atomic fusion apparatus, c. 1962



Is this device an Electronic Fountain of Youth?

Earlier this century Georges Lakhovsky described researches indicating that living cells can be regenerated by applying energy fields of multiple wavelengths. This was done with cosmic radiations 'ringing' wires coiled around plants, and also with refined electrical fields 'ringing' specially designed antennas. Lakhovsky's original work into these subtle forces of nature included the effects of sunspot cycles on plant and animal health, the nature of cancer and how it appears in clusters over areas which have soils that reflect cosmic radiations, thereby causing interference patterns, and how diseased cells would turn to a state of health when specific natural or electrical fields were applied in a proper manner. Lakhovsky, a brilliant scientist, produced a device known as the Multiple Wave Oscillator. The Multiple Wave Oscillator is an ongoing research project of B.S.R.F.!

THE LAKHOVSKY MULTIPLE WAVE OSCILLATOR HANDBOOK

A completely new and updated edition released in 1992! This informative workbook began as an article in **The Journal of Borderland Research** in 1963 and has grown to over 150 pages of schematics, diagrams, research notes, patents, pictures, ideas and suggestions for advancement and refinement of the art. This is the only source which contains the many diverse opinions as to the actual construction details of Lakhovsky's original MWOs. This handbook contains far more information on the construction of Multiple Wave Oscillators than Lakhovsky's own writings, and this new edition contains many new circuit diagrams on Lakhovsky's Radio Cellular Oscillators! You may have heard of different types of devices – this book shows you how to build them all, with reports from researchers who have. From simple experiments with copper coils stimulating the growth of plants to different types of electrical circuits and antenna patterns used in cellular regeneration research this is THE MWO book for experimenters and researchers. Did you know that certain antennas will produce multiple wavelengths without any electrical stimulation? Includes reference section on Frequency-Independent Antennas, which may turn out to be the key to Lakhovsky's hidden secrets. #B0092, ISBN 0-945685-03-3, perfectbound ... **$17.95**

THE LAKHOVSKY MULTIPLE WAVE OSCILLATOR VIDEO

THE SPACECRAFTER™

Environmental Energy Clearing System

You've heard all about the problems of Geopathic Zones, Ley lines, Electro-magnetic pollution and the biological effects of low level radiation. Now, meet the solution. In independent tests in both Germany and America, the SpaceCrafter successfully cleared the biological effects of all Geopathic disturbances. It also cleared the biological effects of exposure to electromagnetic fields, electrostatic fields and all forms of radiation. All of these disturbance fields leave their mark on the environment and the living things that inhabit them. Now, for the first time, the biological effects of these environmental stresses can be eliminated completely and easily by simply using the SpaceCrafter. The SpaceCrafter can also eliminate the odd feelings left in rooms after strong emotional discharges or energy balancing sessions. It can clear the "oranur effect" that poisons orgone accumulators and unmask hidden factors that perplex radionics practitioners. In fact, it can eliminate the residual effects of all disturbance fields in indoor environments, no matter what has caused the disturbance. A total breakthrough, 14 years in the making, the SpaceCrafter is an invaluable tool for professionals working with subtle energy and for the environmentally sensitive alike. Battery operated and fully self contained, the SpaceCrafter comes with a Life Time Warranty against defects and a 60 day money back guarantee. The price of the SpaceCrafter is **$500**, order number E0017 please add $5 postage.

THE ENERGY GRID I

FOUNDATION, EQUATIONS AND RAMIFICATIONS

"The goal of this text is to make available, both to those familiar or not with the energy grid existing upon our planet's surface, a guideline that links the knowledge given out by New Zealand researcher Bruce Cathie (who initiated it all), Argentine investigator Dr. Jose Alvarez Lopez, and the late Richard Buckminster Fuller in their books with the investigations carried on independently by others who were not in the least aware of the grid's existence. I also want to give a foundation to the factual knowledge so painstakingly uncovered by Bruce Cathie, so that NOBODY — no matter how high ranking in the scientific establishment — may be able to attempt 'disproving' what is herein written without showing her/himself as a big jackass. Despite my great admiration for Cathie and his work, I cannot fail to appreciate that his discoveries are limited and that if he had paid just a little attention to some small details he would be the author of this text instead of me. In the course of reading this you will find how I discovered a way to extend up to infinity the unified equations Cathie discovered and which are their foundations. I have written this book so that those who never before heard of the earth grid may be able to understand the subject." J. Resines

AUTOMATED DETECTING DEVICES

"The idea behind this writing is to make available to readers some dispersed personal conceptions that I once told myself, 'someday I will cohere all of this data into a logical ordering and give it to others for perusal, comment and criticism.' Is it possible to build an automated radionic device capable of ascertaining the rates of a certain sickness and to begin immediately treating the patient without the aid (or presence) of any operator? Is it possible to build an automated Moray Radiant Energy Detector capable of self-activation—eliminating the laborious tuning-and bypassing the 'all-fail' problem afflicting this machine and its constituents? Is it possible to build a Tesla-type radionic broadcaster that does not need any tuning, as happened in its time with the UKACO device? I hope to answer in the positive all of the above, and also to add some information that I have previously disseminated (included as appendices) plus analyzing some devices in terms of the energy grid found by Bruce Cathie and enlarged upon by myself. But, this has a cost to the readership: In order to fully understand what I will here say it is imperative that you have read (in this order) my writings: *THE ENERGY GRID*, and *THE COMPLEX SECRET OF DR. MORAY*, for otherwise there will be things you will not be able to comprehend." Jorge Resines, Buenos Aires, 1989.

INVISIBLE RADIATIONS and the MANY GRIDS THEORY

VIDEO

Jorge Resines

Jorge made his first appearance in the United States for the 1990 Borderland Sciences Congress. In this provocative presentation he takes the basics of Gustave Le Bon's radiation experiments and links it with the spiritual perceptions of Rudolf Steiner from his series of speeches delivered in Stuttgart, Germany, for his Warmth Course in 1920. In linking these two separate phenomena, his purpose is not in elaborating some individual theory, but rather to bring them together in order to mutually illuminate and explain each other. And in yet another complementary linking, Jorge closes by sharing his new findings on the Energy Grid which enlarges upon the information released by Bruce Cathie. #V0012, VHS. 60 min. ... **$19.95**

INTRODUCTION TO THE WORKS OF DR. JOSE ALVAREZ LOPEZ
by Jorge Resines

I have referenced in my many writings the works by Argentinian researcher Dr. Jose Alvarez Lopez. His important works reflect the relativistic viewpoint, but do not be discouraged by this. Dr. Alvarez Lopez has found that many currently-accepted relativistic viewpoints are MISTAKES! See **The Meaning of the Clock Paradox** and **Relativistic Dimensional Analysis**.

If you want new devices, you have two here: (a) A new flying device in **Self-Propulsion**, whose patent was finally denied by the Argentine Patent Office on the grounds that it "contradicted the Principle of Action and Reaction" (This was its purpose!); and (b) A different kind of particle accelerator that possessed new features not used at any other in the world yet.

If you have thought that James Clerk Maxwell explained all there is about electromagnetism you are in for a surprise in **On the Inexistence of Electronic Inertia in Metallic Conductors** (which includes **A New Electronic Micrometer**) where is explained a previously unknown aspect of electricity, amplified in **Gravitational Interference in the Einstein Effect**.

And there are the Metric Theorems. When Peter Tompkins wrote his "Secrets of the Great Pyramid", he included Lopez's analysis of the coffer within the so-called "King's Chamber", but forgot to tell his readers of the theorems. You have the theorems plus more in **The Principle of Variational Homogeneity**, its contents are condensed in **Relativistic Dimensional Analysis** and **The Meaning of the Clock Paradox**.

ANOMALIES & MYSTERIES

The Unclassified Residuum was defined by William James, the great American philosopher, in these words: "Round about the accredited and orderly facts of every science there ever floats a sort of dust-cloud of exceptional observations, of occurrences minute and irregular and seldom met with, which it always proves more easy to ignore than to attend to... Anyone will renovate his science who will steadily look after the irregular phenomena. And when the science is renewed, its new formulas often have more of the voice of the exceptions in them than of what were supposed to be the rules." These titles have been compiled and edited by William R. Corliss of the Sourcebook Project and comprise much of the modern unclassified residuum...

SCIENCE FRONTIERS: Some Anomalies and Curiosities of Nature Since 1976, the newsletter *Science Frontiers* has been reporting on key observations made on the forward skirmish line of science. This new book collects, organizes, and indexes the first 86 issues of the newsletter. The intent of the book is not only to entertain but also to demonstrate the ubiquity of scientific anomalies, from Archeology to Geology to Physics. In all disciplines, anomalies are abundant. Scientific anomalies are observations which, in the view of the complier, are explained inadequately or not at all. These data are at once fascinating and vital to the progress of science. Presented in this volume is a selection of the most beguiling, as gleaned from the 100 or so scientific journals and magazines monitored over the past 18 years. We believe you will find this collection both engrossing and eye-opening. Now some statistics: the book contains over 1500 "entries," supported by 1663 references and 417 illustrations. EARTH MYSTERIES & EARTH ENERGIES

EARTH ENERGIES

A Quest for the Hidden Power of the Planet

Serge Kahili King.

Ancient civilizations, understood and used unseen forces, which the author calls Vril, for healing and moving massive stones. In more recent times, researchers such as Mesmer, Reichenbach, and Reich worked with "magnetism", "Od", and "Orgone," which King argues are the same as Vril. The book details experiments King and others performed confirming the work of these men and gives directions for readers to experiment for themselves. Pyramid Energy; Vivaxis — the healing effect of standing on an axis line with your place of birth; Radionics; Geomancy — The ancient art of placing structures in a landscape and furnishings in a room according to energy principles; Future prospects — Hopes for using Vril to aid in healing, agriculture, and pollution control.

THOSE ASTOUNDING ICE AGES

Dolph Earl Hooker.

From whence came the great sheets of ice that covered much of the earth during the ice ages? The ice was deposited rapidly, freezing wooly mammoths in mid-chew on their tropical plant dinners. Where did it come from? The sky? Perhaps so! This astounding book describes the "canopy theory" of planetary development, that is, a spherical shell of mineral and water rotated at a distance from earth's surface, but with a common center and axis. Periodically minerals would fall, creating the stratification found in sedimentary rock (which for the most part is on top of the rock that it supposedly wore down from), and ice would fall, creating the geologically short-lived ice ages which disappeared as the ice melted. This book may very well be the key to many geological and paleontological puzzles. After reading it you'll be amazed at the simplicity & obviousness of the theory! #B0154, 148pp ... **$11.95**

THE COMING RACE

Lord Edward Bulwer Lytton

The story of the mysterious invisible energy known as Vril. It has been observed by an able critic that by far the highest use of the supernatural in fiction is the evolution of human qualities under extraordinary circumstances. Here, Lord Lytton has postulated the infinite extension of force. How would the social polity of a nation be affected by the discovery of a force so simple that any child can employ it, so powerful that it can, like a flash of lightning, rend mountains or destroy armies, or, if differently employed, renovate life and remove disease? Such is the Vril force possessed by the Coming Race and it all takes place deep within the subterranean caverns of the earth. Anyone interested in the possibilities of 'free energy' will obtain a valid glimpse at just what would truly happen to us if we were to unleash such technology in this present age. A "must read"! #B0206, 144pp, spirals ... **$5.00**

WATERS ABOVE THE FIRMAMENT

Isaac Newton Vail

First published as a leaflet in 1874, this title grew into the "Vailian Canopy Theory," a courageous effort to combine planetary astronomy with the account given in the Book of Genesis. The works of Vail have applicability in this space age inasmuch as he offered explanations for the planetary ring systems and cloud coverings. For example, the planet Venus was found to have an ephemeral Vailian-type canopy in 1974, just 100 years after Vail's first publication. And now even the planet Neptune has been found to have the vestiges of a ring system. Once only Saturn seemed to have rings, but Jupiter, Uranus, and Neptune have joined the line up. Also included in this volume are many of Vail's published and unpublished manuscripts such as "Misread Record," "Eden's Flaming Sword," "The Heavens and Earth of Prehistoric Man," "The Ring of Truth," and "Canopy Skies of Ancient Man."

ARCHAIC ROCK INSCRIPTIONS

A. Reader

Mysterious, identical "cup and ring" markings were carved into rocks all over the ancient world. Who were the ancient people who inscribed them in a pattern that spread completely around the earth? Do they convey a message for us from a far-distant past? Are they ancient records of earth's former canopy? This unusual account of the Sculptured Stones of the Old and New Worlds — first published a century ago — gives a rare glimpse into the prehistoric world of our ancestors. The Lectures of Riley Hansard Crabb

The late Riley Hansard Crabb was Director of Borderland Sciences Research Foundation from 1959 to 1985. Riley wrote and lectured prolifically on a variety of subjects that would astonish the mind. The descriptions of these books were written by Riley and used as pre-1985 catalog information. They have been edited slightly, but presented this way to give the flavor of what Riley was trying to transmit in each presentation. Riley was an unsung hero of knowledge in many fields, especially the UFO field where he was able to understand the relationship between all aspects: the physical evidence, the mediumistic messages, and the internal awakening which he related to humanity's climb up the Tree of Life. He took the extradimensional 4-D explanation developed by Meade Layne, Mark Probert and the BSR Associates (as they were called in those days), and put it into schematic representation in his illustrated lectures. To Riley, a physical trip to the moon in a spaceship had to have the inner component of travelling from Malkuth (earth) to Yesod (moon) on the Tree. Riley was an advanced thinker, whose work is dated in various aspects, but in the important ones is still far beyond the present day thinkers in the field!

Riley Hansard Crabb
early 1960s

FLYING SAUCERS AND THE NEW CONSCIOUSNESS – Proposes the idea that the elusive ships from outer space are forcing us to become aware that other dimensions of time and space are around us and within us. BSRF calls this the 4-D explanation of the Flying Saucers and says they are materializations from the Fourth Dimension. This explanation is rejected by the authorities in science and no political pundit would dare offer this to his constituents and hope to remain in office! Nevertheless the evidence for the Visitors' presence is incontrovertible, as is shown in this lecture. Includes reviews of the Maury Island-Puget Sound incident of June 21, 1947 – also the San Diego sighting of October 9, 1946, first reported in BSRA publications (the first published UFO report of the modern era!). #B0289, 50pp ... **$7.95**

FLYING SAUCERS AND THE COMING SPACE PROBES – Discusses the probability that true deep space flight is impossible for man in his physical body, and suggests the possibility that present physical structures won't hold together beyond the earth's magnetic field. The real reason for the U.S. Government's "silence policy" on Flying Saucers is given. Includes speculation on the probability of a Saucer landing at Edwards Air Force Base, California, in the early 1954, gives new data on the tragic Mantel case of 1949, and reports on the findings of the Norwegian government regarding the crashed Spitzbergen spaceship of 1952. Riley charts the range of consciousness from matter to energy (or from physical to Spiritual, depending on point of view) and also discusses the evidence for the decay of our civilization. #B0287, staples, 42pp ... **$6.95**

FLYING SAUCERS AND AMERICA'S DESTINY – This is the lecture that contains so much data on the Polar Flip hypothesis. But more important than that is the revelation of America's leading place in the New Age, once the cataclysmic activity is over. Riley compares scientific data on the planetary cycles with that of certain astrologers, the Theosophical Society, the Space Teachers of George Van Tassel. Other subjects touched on in the presentation are: the sinking of Atlantis, the Judgement Day, the Trance of the Change, the prophecy of George Washington, and the role of the Space Visitors at this time. The master, the major and the minor planetary cycles of the last 25,900 years are charted. #B0288, staples, 40pp ... **$6.95**

COMMUNICATION WITH FLYING SAUCERS (And Their Occupants) – An analysis of the problem of communication with outer space, both from the standpoint of the Visitors and the Invaders in our skies, and from that of the human being who yearns for more Light from Heaven. As the Venusian told Paul Vest in Santa Monica in 1953: "Our problem is to find people who can understand without fear, and cooperate without hesitation." So, this presentation starts off with an explanation of the five different kinds of ESP, or mediumship, and the three types of contact. Included in this is a description of the characteristics of the psychic racketeer, and of the sincerely deluded contactee, mostly from Mr. Crabb's personal observation of them. There is also a listing of the seven basic character principles necessary for mediumship of the highest order, based on Manly Hall's writings. This presentation concludes with a review of data on physical contacts with Venusians in Los Angeles in 1953. #B0290, staples, 31pp ... **$4.95**

THE REALITY OF THE UNDERGROUND CAVERN WORLD – Is the planet Earth hollow? Is it's crust penetrated by vast caverns? Scientists ridicule the idea but their molten core theory has never been proven either. Whether solid or hollow, there are mysterious networks of tunnels and caverns penetrating much of the earth's outer shell. What goes on in that strange and rather frightening world deep beneath our feet? Here, stories of the Inner Earth and its bizarre denizens are analyzed, including the Legends of the Serpent Race; the Shaver Mystery and the Deros; the Cryptic Secrets of the Catacomb of Hal Saflini on Malta; Human Dwarves and Giants; the Kingdom of Pan; the Planes of Consciousness in the Earth; and a Guided Tour of the Earth's Interior. #B0073, 8-1/2x11, 33pp, staples ... **$5.65**

THE SPACE TRAVEL PROBLEM AND HOW WE'LL SOLVE IT, Through Mastery of Occult Science! – Riley's review of the almost insoluble problem of keeping a man alive, sane and well in deep space, as revealed in the press, given to the San Francisco Interplanetary Club, Sept 25, 1964. Insoluble that is, unless the Astronaut becomes an Adept in the power of *mind over matter* – in the honorable pagan tradition of the Kahuna, the Shaman, the Yogin, the witch-doctor. #B0291, staples, 47pp ... **$7.95**

The input of the senses don't provide us any answers to the questions of life, they only pose more questions.

Riley Hansard Crabb

WHO FLYS THE SAUCERS? – Are they super-beings? Are they robots? Are they Humanoids? Or all three? Even the skeptical Saucer researchers are now taking a closer look at the life-forms manning the elusive UFOs. They are rereading the contactee stories for clues as to the identity and purposes of the Visitors or the Invaders. The answers are what they have always been since before 1947. Both Good Guys and Bad Guys are coming here from outer and from inner space. From the extensive files of BSRF, a [then] 25-year accumulation of UFO data, Mr. Crabb marshals the hard evidence for the reality of at least three different kinds of Visitors. This includes first-hand accounts of contacts with Tin-Can and Jelly-Bag robots, the Three men in Black, with the advanced Guardian Viknors from Venus Etheria, and the Ashtar Command with its Guide Lines for Space Contact. #B0292, staples, 47pp ... **$7.95**

MEETING ON THE MOON – Riley brings the UFO picture up-to-date in 1969 with Clips, Quotes and Comments. This is a combination of tow Saucer talks given to the San Francisco Interplanetary Club, Nov 1968 and April 1969. It includes such subjects as the Madrid, Spain sighting of Sept. 1968, John Keel on the Men In Black, an American Flying Saucer, the Oklahoma Burn Case, Deros and Thought Control machines, the Cavern World – Earth and Moon, Ashtar's view of Armageddon, Russians on the Moon in 1968? Radio signals from the Moon in 1938!, the Mars Stronghold on the Moon in 1959 and attempts to contact it, and Ashtar's Creed of the Unorganized. #B0293, staples, 50pp ... **$7.95**

FLYING SAUCERS ON THE MOON – Riley starts off with the premise that the moon is inhabited and is a Flying Saucer base. This is backed up with an analysis of 200 years of astronomical observations on the moon. Illustrations include drawings of moon craters which show the layout of inhabited communities, and the movement of landed spaceships. The race to the moon will do what the Flying Saucer phenomenon didn't do, expand the consciousness of the human race. We are in the midst of this revolution now and Riley gives some hints as to who will be most hurt and who most helped by this radical change in understanding. The last portion of the talk is given over to the an explanation of the Etheric Worlds, and of the occult or hidden side of the moon and its control over the sex life of humans. The Archangel of the Moon, Gabriel, rules Dreams. Here is a hint as to why the Astronauts experience a "break off" in consciousness at high altitudes. #B0040, 8-1/2x11, 41 pp, staples ... **$6.95**

FLYING SAUCERS UNCENSORED – Riley analyzes in detail the UFO landings at Edwards AFB, California in 1954, and the Air Force's subsequent launching of an anti-gravity research program which promised a breakthrough by 1970! There is a large section, illustrated, on occult chemistry and vortexian physics, on which technical and mental control of gravity can be established. This includes a review of Dr. Puharich's famous chapter 11 on PSI plasma from his "Beyond Telepathy" book. New and old UFO sightings are illustrated and analyzed. Lao Tse of the Inner Circle tells us why UFOs are here and M.K. Jessup tells of his after-death trip to Venus in 1959 and present work for peace. #B0294, staples, 51pp ... **$7.95**

SPACECRAFT FROM BEYOND THE SUN - Continuing his deep probing of the constant presence of the Visitors, for the 10th Annual Northern California Spacecraft Convention in Berkeley, October 1966, Mr. Crabb said the Flying Saucers were here to make an examination for the record of the last days of this Piscean Age civilization. So are the Visitors here to oversee the birth of a new Aquarian Age civilization! This talk is a review of prophetic material about this critical period, 1966 through 2000 A.D. It includes a review of the Coming of the Masters, from Alice Bailey's "Treatise on Cosmic Fire", a trip to Sirius, the central sun of our super-solar system, and the coming of a new sun into our Solar System as told to Dino Kraspedon in 1952. #B0295, staples, 50pp ... **$7.95**

LUCIFER, THE LIGHT-BRINGER – Do you really know the Devil? When he first Appeared? His official positions in the Occult Hierarchy? His other functions and responsibilities? His relation to the Extreme Right of Catholicism and the Extreme Left of Communism? This talk, given at Harmony Grove, California, June 2, 1963, classifies and diagrams many aspects of the problem of Good and Evil, as seen through Occult Science and the Kabala. There is much food for thought here and the philosophy from the Western Mystery Tradition may make the birth pains of the New Age a little easier for you to take! An interesting dialog with a devil is included, the one who inspired the Kaiser in World War I. #B0296, staples, 33pp ... **$5.95**

THREE GREAT AQUARIAN AGE HEALERS – In this talk on Psychic Surgery Dr. Crabb examines the work of Dr. Wm. Lang, who died in 1938. The good doctor now carried on his practice through medium George Chapman at Aylesbury clinic north of London. Here Dr. Lang explains just how a spirit doctor works. In the second section Dr. Crabb analyzes New Age Color Therapy developed by Drs. Pancoast and White, explaining Cabalistic principles on which color therapy is established: Balance and Rhythm! Book has pics of the doctors and technical drawings for the construction of a simple, duo-rhythm color projector suggested and used by Dr. White in the 1920's. #B0083, 8 ½ X 11, 62 pp, staples ... **$9.75**

THE PSYCHEDELIC EXPERIENCE – With accounts of personal experiences by Riley Hansard Crabb (Mescaline), Larry and Kathleen Chatterton (LSD25), and Bernard Copley (Peyote), and with a summary of years of research by Dr. John W. Aiken, Socorro Clinic. Crabb found that to take the drug is self-surgery with the mind, opening up the user's whole interior world to his astonished gaze. #B0066, 49pp, staples ... **$7.65**

THE OTHER MEANING OF CHRISTMAS - For the serious student of the Mysteries of the Western Tradition, an explanation of symbols and symbology in the Gospel story. Subheads: The Christmas Initiation, the physiological Awakening, the Higher Trinity, the Three Signs of the First Great Initiation, the Winter Solstice, the Two Christmas Archetypes, the Womb of the Earth, the Queen of the Angels, the Sun Behind the Sun, the Tree of Life, Tarot Trump No. 19 and a Christmas Ritual. Everyone who is trying to regenerate himself under the stimulus of Aquarian Age influences is living the Gospel story whether he realizes it or not! As Geoffrey Hodson says: "We all have nativity, conversion, baptism, of sorrow, transfiguration or upliftment, betrayals and crucifixions," and this five-fold cosmic cycle is repeated over and over again as we move through incarnation here on the surface of the earth. This is preparation for the five Great Initiations which wind up our human evolution.

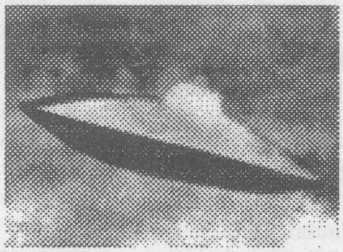
OVERLORDS OF THE UFO



UFO Photograped by the U. S. military

This scientific documentary brings into perspective the greatest mystery of our time – *the UFO*. Mysterious happenings have been occurring all through recorded history, but have greatly accelerated in the last 40 years: Our fastest jets are paced and passed by these enigmatic craft; They have been sighted and photographed by over 25 astronauts; Satellites have mysteriously disappeared from orbit; Bizarre mutilations of livestock have puzzled researchers; A pond is found frozen during warm weather after a UFO is sighted over it; Abductions and examinations of ordinary people going about their business have taken place. All authoritative sources in academia and science are silent. The government is close-mouthed. Airline pilot's jobs are threatened if they publicly report what they have seen. From what world or etheric dimension do these enigmatic craft emerge? What new forms of knowledge do they portend? What realities lie beyond our present human knowledge? Who are the Overlords of the UFO? This movie, first released in 1976, is still excitingly important today. 95 MINUTES, COLOR VHS #V0036 ... **$19.95**

FLYING SAUCERS AT EDWARDS AIR FORCE BASE, 1954

A compilation of all BSRF documents about the secret landing of UFOs at the Air Force Base, Muroc Dry Lake, California high desert. Includes a reproduction of Gerald Light's original letter to Meade Layne on the UFO landing, received April 16, 1954, Layne's Special Bulletin of April 16, 1954, and the lenghty interview about the Muroc-Edwards landing with Ramon Natalli and the Yada through Mark Probert the following day, April 17, 1954.The general import of their conversation was that the world faced almost certain destruction by total atomic warfare at that time UNLESS our leaders were shocked into full awareness of their suicidal course. A show of presence, and force, by Guardian spaceships apparently was the method chosen. It is quite likey that similar landings, and warnings, were made at secret military bases in China and Russia at the same time. #B0039, 8-1/2x11, 44pp, staples ... **$7.50**

THE CASE FOR THE UFO

Morris K. Jessup

Perhaps the best UFO book ever written... first published in 1955 this book is even more timely today. Jessup was a trained scientist with a clear mind, able to see beyond orthodox world concepts and the misinformation floating in UFO circles during his day. Taking a Goethean view of the phenomenon of UFOs he was able to see a clear link between UFOs and the weird data collected by Charles Fort: those strange objects falling from the sky, such as chunks of ice, showers of stones, organic matter, fish; as well as disappearing ships and crews, teleportations, fireballs, and more.... Jessup's strange death in 1959 was attributed to his knowing too much. Introduction by Frank Edwards, who also died under mysterious circumstances. Find out what they knew!

GRAVITY IS A PUSH

Walter C. Wright, Jr.

Einstein theorized that gravity is a kind of magnetism generated around any physical body in the form of a unified field. Author Wright takes this theory one step further to demonstrate with a wide variety of formulas, dia grams, and models that the force of gravity, rather than emanating from the earth, comes from outer space, and that objects are pushed towards the earth rather than attracted by it. Mr Wright has been working on his theory that gravity is a push between heavenly bodies for more than ten years and in that time has generated a great deal of controversy as well as a large following who believes his theory. Bergquist describes how the stratification layers were laid down in minutes, rather than millions of years. The aim of this work was to convince astronomers that there's no such power in this universe as attraction or repulsion in operation today; or that it ever existed, except in the belief or imagination of those who follow this science. The author states that this Earth is not clad in polished steel, nor magnetic iron nor in the solution used as a substitute for that purpose, nor are any of the Planets from the smallest to the greatest. Includes many interesting experiments detailing how to view the planets and Sun properly. A most fascinating interpretation of the eidetic worlds of time and space! MORE PRECIOUS THAN GOLD

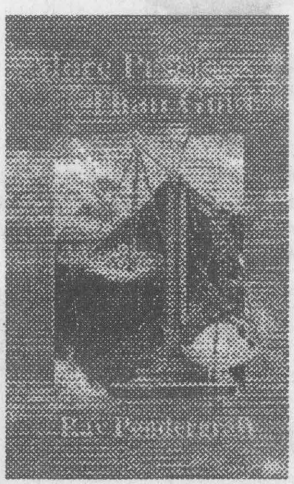
Ray Pendergraft



Pascalite . . . a unique clay with amazing properties, gifted to Humanity by Nature. Known to the American Indians as EE-WAH-KEE – *The Earth That Heals* – Pascalite was named after Emile Pascal, a French trapper who first introduced it to the European settlers.

Found only in Wyoming's Big Horn Mountains, Pascalite exists as an eighteen-foot vein of dense, cream-colored, cheese-like material. It is super rich in organically assimilable minerals and trace elements. Pascalite is hand-mined underground and solar dried in the mountains, then powdered for internal and external use.

Since its distribution as "Life Mud" in the 1930's, up to the present day, users of Pascalite have reported many dramatic health enhancing results from this enigmatic substance. Pascalite has been found to have many uses in promoting health in plants, animals and humans.

More Precious Than Gold reads as a compelling episode of American history, relating the unique story of Ray and Peggie Pendergraft, two pioneers whose eventful lives have become totally intertwined with the curious and continuing saga of Pascalite.
